4 weeks for completion of online coursework; up to 12 weeks of peer mentorship and technical assistance (college applications, financial aid/FAFSA forms)

Platform:

Entirely virtual -- laptop/device and internet connection are required

Courses:

Microsoft Office, Personal Finance, Team Building, Communications, Career Building + one optional technical course in a high-growth area (like manufacturing or computer science)

\$200 Prepaid Visa Debit Card

Student 5.0 is a program of **ReadyCT**, a Connecticut nonprofit organization advancing public education through programming and policy advocacy.

College. Career. Apprenticeship. What will be next for YOU?

Student 5.0 is a fully online experience that will help Class of '20 graduates answer that question, a question that might already be answered if COVID-19 didn't disrupt the important post-grad planning process.

With the guidance of a peer mentor, Student 5.0 participants will receive assistance with college application materials (including FAFSA) and complete engaging online coursework in important life skills subjects.

To qualify, participants must be Class of '20 CT public high school graduates* with a willingness to create a plan with a peer mentor -- through Zoom meetings, phone calls, texts -- that establishes short- and long-term goals.

Space is limited. [APPLY TODAY!](#)

*Priority will be given to graduates from Connecticut's Alliance District schools
