

# Student 5.0. Your Future. Your Path.

You've chosen college, and that's great. Yet you started college under pretty difficult circumstances: COVID-19!

Fortunately, the **Student 5.0** program is working with your college to help you stay on track. The program is exclusive to class of '20 high school graduates, it's entirely virtual, and it will help you meet your goals!

In **Student 5.0**, you will receive:

- A peer mentor who will provide the guidance and support you need to successfully complete your first semester — and prepare for your next one!
- Access to optional online learning and live webinars to help you build critical skills like communication, teamwork, and personal finance
- BONUS: There is an opportunity to earn \$200 through online learning! (Details can be found in the online **Student 5.0** application.)

## Key Player Alert: The **Student 5.0** Peer Mentor

In **Student 5.0**, the peer mentor is uniquely positioned to usher participants toward success. S/he is someone who made a successful transition from high school to college and has experience with advising. All peer mentors:

- Are trained in **Student 5.0** services
- Receive weekly professional development on topics including: foundations for 1st year success in college; financial aid; support for non-citizen students; resources for students needing accommodations, and more
- Meet virtually with mentees once per week; email or text throughout the week (depending on mentee's needs); conduct weekly pod meetings with their full mentee group for a social/learning experience

**Student 5.0** is operated by ReadyCT
